CITY MANAGER AUTHORITY PROCUREMENT AWARDS

ACTION REQUESTED:

Approve the award of Cooperative Procurement 20-125, Downtown Naperville Metra Train Station Stair Renovations, to Garland/DBS Inc. for an amount not to exceed \$59,636, plus a 5% contingency.

DEPARTMENT: Department of Public Works

SUBMITTED BY: Richard Dublinski, Director

BACKGROUND:

The Department of Public Works - Public Buildings Operations (PBO) is responsible for the maintenance of the building, pedestrian ways, tunnel, stairs, shelters, and lighting at the Downtown Naperville Metra train station. Over the past several years, PBO has focused on completing exterior improvements on the building including replacing the roof, tuck-pointing, and renovating the stairs on the south side of the tracks leading to the pedestrian tunnel. Most recently, the City applied for and received HUD funding in 2019 to replace the doors on the north and south sides of the station and replace the concrete approaches adjacent to the sidewalk to meet ADA requirements.

DISCUSSION:

In 2020, as part of CIP Project MB180, Train Station Platform, Walkway and Stairwell Repair Program, PBO will undertake the Downtown Naperville Metra Train Station Stair Renovations project. This project will renovate the north and south stairwells on the east side of the train station and includes the following work items:

- Prepare the stair surfaces and apply Gar Rock and a DuraWalk coating system;
- Repair the ceiling on the south side of the stairwell, including removing loose concrete, epoxy injections, patching and painting;
- Sand and paint the railings along the walkway and down the stairs on the south side; and
- Remove and replace 20 expansion joints on the train station platform.

Gar Roc is used to patch the concrete and is followed by the application of the DuraWalk coating system which provides a waterproof, slip resistant, and easy to clean surface. Performing this work will enhance pedestrian safety because the construction will repair deterioration caused by age, weather and the effects of the salt used in winter operations and prevent water from trapping and causing further deterioration.

The work will also include repairs to the ceiling on

The stairwell renovations services are available on the OMNIA Partners Government Cooperative Contract #PW1925 through Garland/DBS Inc.

FISCAL IMPACT:

CIP #: MB180

The Downtown Naperville Metra Train Station stair renovations are expensed to the building improvements account below. This work is related to MB180, Train Station Platform, Walkway and Stairwell Repair Program, for which \$380,000 has been budgeted in 2020. The requested award of \$59,636 plus a 5% contingency is within the budgeted amount for this expense.

Account Number	Fund Description	Total Budget Amount
31341200-551500	Commuter Parking Fund	\$380,000

*Per Council directive, contingency on construction projects is set at 3% on projects over \$500,000 and 5% on projects under \$500,000.
