TRANSPORTATION ADVISORY BOARD AGENDA ITEM

ACTION REQUESTED:

Recommend approval to rescind stop control and establish a traffic-control signal intersection at 95th Street and Knoch Knolls Road

DEPARTMENT: Transportation, Engineering and Development

SUBMITTED BY: Andy Hynes, Deputy City Engineer

BACKGROUND:

The City Council awarded a construction contract to install a new traffic signal at the intersection of 95th Street and Knoch Knolls Road in June 2018. The intersection met vehicular volume and crash history traffic signal warrants.

DISCUSSION:

The new traffic signal at the intersection of 95th Street and Knoch Knolls Road was activated on March 22, 2019. Existing stop controls were removed at that time. The attached ordinance updates the traffic schedule of the Municipal Code with these revisions.
