CITY COUNCIL AGENDA ITEM

ACTION REQUESTED:

Adopt the resolution authorizing the City Manager to execute the Right-of-Way License Agreement with CenturyLink (Level 3 Communications, LLC) for placement of fiber and conduit in the City's Right-of-Way

DEPARTMENT: Transportation, Engineering and Development

SUBMITTED BY: Tim Felstrup, Project Manager

BOARD/COMMISSION REVIEW:

N/A

BACKGROUND:

CenturyLink has asked for the City of Naperville to approve a right-of-way use license to allow it to install fiberoptic cable and conduit underground in the City's' right-of-way. The request is related to needs of certain businesses to connect to dedicated fiber-optic telecommunication lines for a variety of reasons including improved speed, global reach, and security.

On December 18, 2018 City Council passed Resolution 18-023 authorizing the City Manager to execute the Right-of-Way License Agreement with CenturyLink for phase 1 of this project.

DISCUSSION:

The Naperville Municipal Code (9-1B) provides that a right-of-way use license is required whenever a company desires to locate non-cable or telephone telecommunications facilities in the City's right-of-way. The Naperville Municipal Code requires a right-of-way use license agreement contain the following:

1. Five-year term with renewal and termination options;
2. Annual license fee of \$1.50 per each linear foot of newly installed facilities or \$.50 per linear foot for facilities located in existing excess or surplus facilities;
3. Obligation to cooperate with the City and move facilities if necessary;
4. Liability indemnification as well as insurance and construction/performance surety requirements.

CenturyLink has applied for a right-of-way use license. A review of their plans has been completed by appropriate City departments.

The following is a key summary of the proposed projects:

ADDRESS: 3333 Warrenville Rd., Lisle, IL
PROJECT NAME: I-88 Network Sub Loop Expansion, Lisle, IL

SITE LOCATION

Covered on Permit #18-88800053
